

31 May 1956

Memorandum for: The Comptroller

Subject: S. 3897, a bill to improve governmental accounting methods and procedures, and for other purposes.

1. This is a fresh revision of S. 3199, and deletes a number of the provisions in that bill. I sent your comments on S. 3199 to the Bureau of the Budget in March. I would like a quick reading on your reaction to this bill before I communicate further with them.

2. We don't know whether the bill will get anywhere. Hearings are scheduled to begin on June 4th.
